

Alba Rubio is the head of the Early Phase Clinical Trials Unit of the Niño Jesús Hospital in Madrid, Spain. She participates as an investigator in more than 30 early phase clinical trials, both academic and industry sponsored, focused on various pediatric solid and hematological tumors, including neuroblastoma. She is a member of the Spanish Society of Pediatric Oncology (SEHOP), where she is mainly focused in the New Therapies and Neuroblastoma working groups. She serves on the executive committee of the Spanish Network Pediatric Clinical Trials (RECLIP) and on the Solid Tumor Committee of the “Innovative Therapies for Children with Cancer Consortium” (ITCC) consortium. She is member of the European Society of Pediatric Oncology (SIOPE) where she acts as the Spanish representative in the group "National Junior Organizations" (Young NaPHOS). She is also member of the European neuroblastoma consortium (SIOPEN) and member of the Spanish Sarcoma Research Institute (GEIS). She has published several works in indexed journals, she is the author of 3 book chapters and has made multiple communications in national and international congresses. Her main areas of interest are the pathogenesis of oncological diseases and the development of new therapies capable of increasing the survival of pediatric patients.
